

# Card Type Infrared Remote Control Unit **REA-33 (STD-33)**

## OUTLINE

A model functioning as a space saver (thickness : only 8.7mm) with the maximum number of keys : 21. Here and there applied has been much contrivance in order not to allow reduced operability with functionally arranged, rather large switches into a narrow space and the geometrical form of body which familiarizes with our hands.

In addition, it can still be used widely for anything from video cameras and car audio to portable AV equipment.

## FEATURES

1. The setting of key number and nameplate design can be freely selected. (max. 21keys.)
2. It can be used for various applications.
3. Products : MALAYSIA
