

Internal Power Supply For Audio Equipments

SRA Series

Adaptors, Chargers/Switching Power Supplies

FEATURES

1. Input voltage : 100V, 120V and 100~240V input.
2. Output voltage capacity : 50~350W.
3. Multi-outputs and a customized power supply to meet user specifications.
4. Low standby power type.
5. Compatible with digital and analog systems.
6. Employs partial resonance circuit (for low noise and high efficiency).
7. Board height of lower than 30mm achieved.
8. Has efficiency of 75% or more.
9. Safety standard: Complies with the safety standards of each country.
10. Supports lightning surge and transient tests.

USES

1. Audio Equipment.
