

7.5W AC Adaptors with World Wide Input

ADP-USB-G4 Series

Adaptors, Chargers/Switching Power Supplies

OUTLINE

Small AC adaptor for use overseas, featuring a USB standard TYPE_A connector for output. Inlet TYPE AC adaptor of ADP-USB-W4 Series. Can meet safety standards for all destinations.

FEATURES

1. Supports the latest DOE efficiency regulation.
2. Standard cases for various countries and regions have been made.
3. Small size: volume 40cc

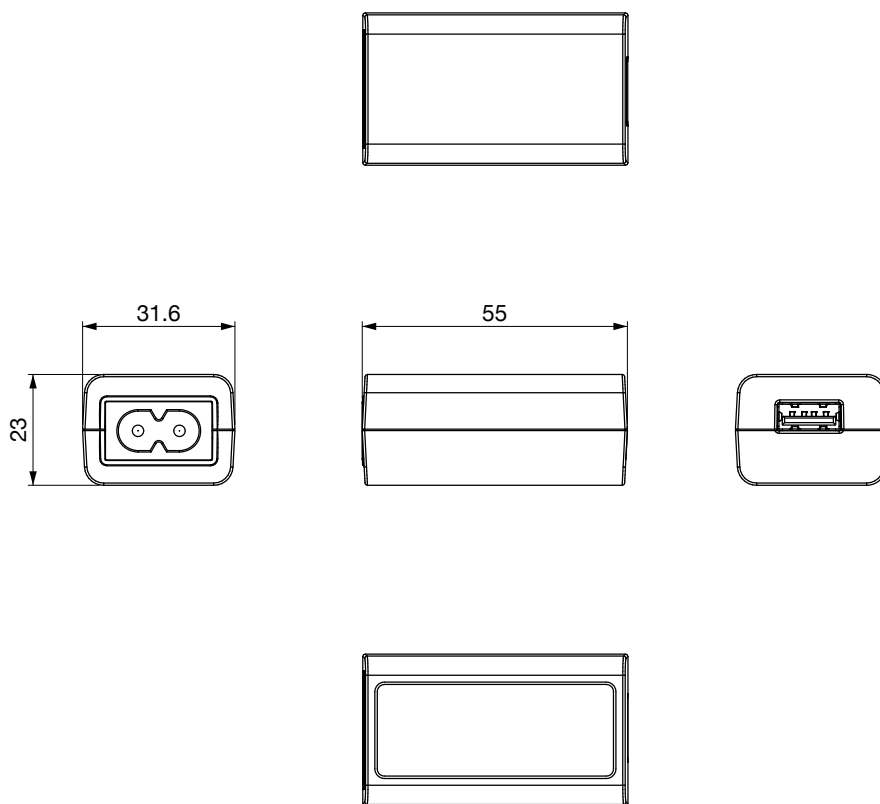

USES

Information communication terminal. (Smart phone, Tablet, DSC, DVC etc.)

SPECIFICATIONS

| Item | Specifications |
|-----------------------------|--|
| Output Voltage | 7.5W (5V/1.5A) |
| External Dimensions | 23 (W) × 55 (D) × 31.6 (H) |
| Stand-by power | 30mW or less (Specification required by DoE) |
| Output control method | Primary Control |
| Average efficiency | 77.5% Typ. |
| type | AC inlet type |
| Operating temperature range | 0~40°C |
| Storage temperature range | -20~+60°C |
| Output connector | USB TypeA |
| Safety standards | Conforms to IEC60950 |
| Destinations | Whole-world correspondence |
