

Product Information

WHEN ORDERING

1. The electrical specifications of our power supply products are all custom specifications.
You are kindly requested to place your orders with such inquiry specifications as attached.
2. Standard cases are available for the AC adaptors.
These adaptors will surely reduce your initial cost by large.
3. Charger products can be customized.
4. With your own designs and specifications, even much simplified,
we will be able to issue the drawings and specifications concerned.
5. For our AC input products (AC adaptors and chargers) that are international-safety minded,
you are requested to give us their destinations for us to be able to adapt ourselves to your own standards.
6. There may be some types of products out to the line of production, though rarely.
When ordering you will be asked to consult us.
